

CERTIFICATE

Sustainability Management according to EMAS^{plus}

Evangelische Bank eG
Ständeplatz 19
34117 Kassel

Certified locations: 3

The Certificate no. DE-E2011-01 is valid until
22th November 2026

The Environmental Verifier comprehensively verified the Sustainability Management, the Sustainability Review, its Results, the Sustainability Performance and the Sustainability Report of the organisation.

The documented audit has proven that the Management System and the Sustainability Report meet the requirements of the Sustainability Management System EMAS^{plus} according to the actual Guideline 2020.

EMAS^{plus} requires a validated Environmental Management system according to EMAS and follows the principles and core areas of the international Guideline DIN ISO 26000 (Guideline for Social Responsibility). The Sustainability Certification according to EMAS^{plus} Guidelines does not replace the EMAS-Registration according to VO (EG)1221/2009.

Stuttgart, 22th December 2023
